Winterize Your Immune System

Contrary to popular belief, there is no "magic bullet" to protect you during the cold weather season. WELLNESS FORMULA addresses multiple body systems that impact immune and upper respiratory health. Its ingredients support interlocking components of the immune system, antioxidant defense, stress response, and cleansing and clearing of the mucous membranes.

	Immune System	Antioxidant Defense	Stress Response Mechanisms	Respiratory System: Cleansing Mucous Membranes	Respiratory System: Clearing Mucus
ACTION	The immune system protects the body by responding quickly to outside influences. Immune system components addressed by Wellness Formula include <b>protective barriers such</b> <b>as the skin and mucous</b> <b>membranes, cell-mediat-</b> <b>ed immunity involving</b> <b>T-lymphocytes and thy-</b> <b>mus support</b> , and humoral immunity con- sisting of B-lymphocytes and macrophage interac- tions.	White blood cells generate free radicals, highly reactive molecules that can damage cells. Vitamin C, a free radical scavenger, is concentrat- ed in certain white blood cells at much greater levels than in sur- rounding fluid, providing them with a built-in defense mechanism. Bioflavonoids comple- ment the action of vita- min C.	Science now shows that emotional and physiologi- cal stress significantly impact the immune sys- tem. Siberian ginseng is an adaptogen whose key constituents, saponin gly- cosides, <b>support the</b> <b>body's stress response</b> .	Our nasal passages, sinuses, throat and bronchial tubes are protected by mucous membranes, moist layers of connective tissue that are the first line of immune defense. Nutritional support ensures the integrity of these tissues. As a result, the membranes help to protect us and to <b>cleanse the body of outside influences.</b> The addition of herbiotics helps to cleanse the mucous membranes, which is an important part of winterizing your immune system.	For additional support during the changing seasons, we have included herbs that support the body's <b>clearing</b> <b>of mucus in the upper</b> <b>respiratory system</b> .
CONTENT	Astragalus, Boneset, Echinacea, Isatis, Propolis, Selenium, Zinc, Vitamins A & C, Beta Carotene	Astragalus, Bioflavonoids, Hawthorn, Pau d'Arco, Selenium, Zinc, Vitamins A & C, Beta Carotene	Siberian Ginseng, Calcium, Magnesium, Vitamin C	Astragalus, Echinacea, Garlic, Goldenseal, Isatis, Mullein, Oregon Grape, Pau d'Arco, Propolis, Copper, Zinc, Vitamins A & C	Angelica, Cayenne, Goldenseal, Horehound, Mullein, Oregon Grape, Polygonatum
